**1: Our world is a wavelike and vibratory world:**

Each part and each whole of world, have been made from **collection of different waves** and **vibrations, each moment**.

**1- Example:** For easy knowing, you consider a book.

A book has been made, from sections, clauses, sentences, words, and letters.

Letters..... are waves, making the..... word.	words..... are waves, making the..... sentence.
Sentences..... are waves, making the..... clause.	clauses..... are waves, making the..... section.
Sections..... are waves, making the..... Book.	Parts..... are waves, making the..... whole.

**1- Example:** For easy knowing, you consider a body of human, animal, insect, tree, and plant. A body has been made from Organs, Tissues, Cells, Molecules and Atoms.

Atoms..... are waves, making the..... Molecule.	Molecules..... are waves, making the..... Cell.
Cells..... are waves, making the..... Tissue.	Tissues..... are waves, making the..... Organ.
Organs..... are waves, making the..... Body.	Bodies..... also, making..... Dimensions.
Clothes..... are waves, body under the wave.	Bodies ..are waves, God also non-wave.
Space is nothing, is also wave of nothing.	If we delete the wave, lack of wave is Nothing.

**2: Our world is a dual world: It means each thing, has been** made from two different things.

1- **Example:** Male and Female. Kitchen and Toilet. Each one of these are perfect phenomenon, and when those are combined, they complement each other.

2- **Example:** Inside and Outside. Entrance and Exit. These are paradoxes of one phenomenon.

3- **Example:** Brightness and Darkness. White and Black. Love and Hate.

If one of these phenomena be appeared in an environment, concentration of which one become more concentration of other become low.

4- **Example:** Producer and consumer. Land and Sea. Earth and Sky. Spirit and Soil.

These paradoxes are required of each other.

5- **Result:** You consider that,

In this world, paradoxes actually no are opposites of each other.

Rather, they are together and those are complementary of each other.

**3: In this world, all Materials and all Herbal, Animal and Human alive beings are** function of a series of relationships and laws and formulas.

1- Beings under those relationships and laws and formulas, are created, are lived and are died.

2- And Materials and Galaxies under those relationships and laws and formulas, are created, are remained, and are destroyed.

**4: In this world, what is Science?**

Then, in over time, “Gad” or “nothing” induces relations, actions and reactions of each phenomenon with other phenomena, to we humans’ “aware mind”, we call it science.

And if science is induced to mind of each person, we call him a scientist.

And we call discovery and invention result of science. (Our scientists no know this)

First, we humans don’t know Relation and action and Reaction of that phenomenon with other phenomena.

Then, in over time, “Gad” induces and reveals, relations and actions and reactions of that phenomenon with other phenomena to our scientists’ “aware mind”, and we name “Science”, speeches of scientists. And it has not related Science be Religious or Materialist. In each period of history, God brings new scientists to our world, and God raises our scientific awareness by them.

1- Science was before us, is now, and it will be in future.

2- Science is a phenomenon, God creates each phenomenon no humans and Scientists.

3- All of discoveries and inventions are event, and absolutely, God creates all of events not humans and not Scientists.

4- Science is not belonging of man or woman, religious or materialist, poor or rich.

5- In our world, a number of ordinary people, a number of scientists, politicians, psychologists and astronauts become fanatic to science. and they size the science. And if a person, criticizes from science, they kill him or her for anti-science crimes. (Riza Satisfied)

**5: In this world, what is path?**

"GAd", with creating of each phenomenon, same time also, creates path for it.

Path shows that, each phenomenon, in each moment, in each place of universe, in which level of awareness is it? In our world, "GAd" creates dē path in two individual and social instructions.

Then, in over time, "GAd" induces and reveals dē path to "aware mind" of we humans.

And if path reveal to who person we name him or her prophet. prophets raise our path's awareness.

In each reincarnation automatically, awareness of each phenomenon increases a little.

1- Path was before us, is now, also will be in future.

2- Path is a phenomenon, and God creates dē path, no humans, no prophets and no Gnostics.

3- Path no is belonging to man or woman, religious or materialist, poor or rich.

4- In our world, number of Humans, Mullahs, Clergies and Missionaries, Imitators and Praisers, become fanatic to Path, and they size dē Path. And they kill criticizers for name of anti-path crime.

**6: In this world, we have noticed by science that,** an alive herbal and animal and human creature, no can be alive without air, water, food and proper temperature.

These Relationships and Laws and Formulas there were also before discovering.

So: Scientists have not established dē Relationships and Laws and Formulas from own.

But scientists size dē Relationships and Laws and Formulas after discovering of those.

**7: In this world, we humans see with our eyes that:**

1- A creature lives in land, and dies in water. Like human.

A creature lives in water, and dies in land. Like fish.

A creature lives in land, and also in water. Like frog.

2- A Religious and a Materialist that, is carrier of negative adjectives, he or she knows dē own wise. He or she says, this is impossible. I haven't eaten donkey's brain. I no can accept three kinds of paradox lives. But this wise human, when saw these three opposite kinds of dē life, and each impossible event, with own eyes, he or she accepts, and says, this is a normal and natural and a scientific event.

3- Now Wise human wants to find a planet in universe that, its climate become same of earth planet till it be livable. While, there are uncouneted lives in universe that, their weather is not like Earth planet, and those are livable. (Today our scientists reject this and tomorrow after discovering it, they will say: This is a natural and scientific event)

Our world's scientists and psychologists and politics:

1- They no know that, exist is effect and nothing is cause.

2- And also, they no know exist and time is also function of nothing.

3- And also, they no know science is also in function of phenomenon.

4- And also, they don't know, God first creates dē phenomenon and feature of phenomenon, then God instals dē science to phenomenon.

5- And also, they don't know, science is a brochure that, it explains structure and feature and action and reaction of a phenomenon with other phenomena.

6- And also, they don't know, God reveals dē structure and feature and action and reaction of a phenomenon with other phenomena to us, in appearance and in reality, we are discoverer and inventor. But in inner in factuality "Nothing" or "GAd", is discoverer and inventor, not we.

7- And sorry, our fanatic religious and scientists and politics no can understand this.

4- Wise human, it means a man or woman that, no has negative adjectives, he or she knows that, whatever that is created in each moment in world, those are impossible event that, those events have been become possible. Wise human, is surprised and thankful for every destructive and calamity event and for every useful and constructive event. And always enjoys from life. (Riza Satisfied)

**8: In this world, Collapsing of regimes by prophet and prophet's miracle.** MirAk, MirAkəL, MirAk'er

1- Each time that, a Religious or a Materialist regime saw own firm and steady, and assured, and saw that his or her regime has been eternal, that time, is reached his or her falling time.

And that regime is collapsed by a person or a group.

And this is one of our "World's Fixed Laws". Like formula of  $2 + 2 = 4$ .

2- Before than I reveal this law, this law was in world, and thousands of times also has been happened.

So: I haven't established this "World's Fixed Law", and I also no raise my neck.

**9: In this world, sometimes, those despotic regimes are collapsed by prophets.**

Prophets are aware, free, glad, thankful, rich and satisfied.

And they aren't dependent and fanatic to any group and any regime.

And prophets love all of people like own family.

And Prophets alone and empty hand act to collapsing of a despotic and sly regime.

And this is also one of our "World's Fixed Laws". Like formula of  $2 + 2 = 4$ .

So: I haven't established this "World's Fixed Law", and I also no raise my neck.

**10: In this world, Because of, prophets alone and empty hand act to collapsing**

a despotic and crafty regime, it is required prophets use from a technique that, it isn't come to their mind and people's mind. That technique is named Miracle.

Miracle is also one of our "World's Fixed Laws". Like formula of  $2 + 2 = 4$ .

(In each person's life, at least a miracle or more happens. And this no has relation with our religious and materialist being)

So: I haven't established this "World's Fixed Law", and I also no raise my neck.

**11: A didactic example: In Decius Roman's emperor's period:**

1- Five men and a shepherd from harassment of Decius, they decided escape from own city. And a shepherd's dog also was with them, they were seven people.

2- In way, they rested in a Cave, and they were tired, they slept in that Cave.

Cave no had door, till protect them, from wild animals or protect them, from heat and cold.

They slept in that Cave without drinking water and without eating food, about three hundreds of years.

They woke up a day and noticed that, they have slept their about three hundred of years.

And this event no has match with Relations and Laws and Formulas of our world.

3- But we become Religious or Materialist, alive being of six humans and a dog, without water and food and air and proper temperature, three hundred years, it was an imposable event of God from infinite imposable events of each moment.

And this is also one of our "World's Fixed Laws". Like formula of  $2 + 2 = 4$ .

So: I haven't established this "World's Fixed Law", and I also no raise my neck. (Riza Satisfied)

## 12: In this world, what is **Magic (Majik)**?

1- Majik is a show and an action based on **deception** and **trick** and **self-showing**, and it is **negative adjective**.

2- Sorcerer or Magician or Majiker in appearance doing an impossible show and action and amazes people.

While, Majiker hidden doing a normal action that, in appearance others no see that hidden action.

If others to see that hidden action others also can do that majik.

3- First: Magic's action involves Majiker in mental awareness.

Second: Magic's action involves Viewer in mental awareness.

4- Majiker with own authority can do and can show own majik, for each person, in each time and in each place.

("Nothing" creates Majiker and his or her Majik)

5- Majiker is dependent and fanatic to own majik.

If people accept majiker and his or her majik, majiker becomes happy,

And if people curse dæ, Majiker, he or she becomes sad.

## 13: In this world, what is **Miracle Mirak**?

1- Miracle is a show and an action based on **informing** and **Releasing**, and it is a **Positive adjective**.

2- Prophet in appearance doing an impossible show and action and amazes people.

While, God does Miracle, prophet and people cannot do miracle.

3- First: Prophet's awareness rises up by Miracle.

Second: Person that sees Miracle, he or she puts away own negative adjectives and his or her awareness rises up, by Miracle.

4- Prophet with own authority cannot do and show a miracle, to any person, in each time and in each place.

5- Prophet no is dependent and fanatic to own miracle.

If people insult to prophet and his or her miracle, prophet no become sad.

But, because of, follows of prophet, are fanatic, so if a person curse to prophet, path or holy place, they kill or are killed, and even, they tried to own anti-god, anti-path and anti-prophet action.

\*Physicians give a severe shock to half-dead patients, and some of those patients become alive by that shocking.

\*Prophet also, with own miracle gives alive to some people that have been caught by **negative adjectives** of **worry**, **fear**, **sad**, **unsafety**, **division**, **war** and **limitation**. And those people with putting away own **negative adjectives** they reach to **awareness**, **freedom**, **gladness**, **safety**, **peace** and **illimitation**. (RizA Satisfied)
